4 IMAGE Skincare® Products for Spending Time Outside

When you spend a lot of time outside, whether it's hiking, taking the kids to the park, or just walking the dog, your skin can feel the effects. You experience the weather and all the ups and downs it brings. But IMAGE Skincare® can help. Whether you need a [facial cleanser](#) or some SPF moisturizer, here are the best IMAGE Skincare products for lovers of the great outdoors.

PREVENTION+® sun serum SPF 30

IMAGE Skincare's PREVENTION+® line is all about protecting your skin from the sun and nourishing it at the same time. First up is the sun serum. This [SPF serum](#) is an all-mineral sunscreen that provides broad-spectrum protection every day.

This serum is suitable for all skin types so everyone can utilize it on their outdoor adventures, and the sheer formula gives a dewy finish and just a hint of citrus aroma that you'll love.

Apply the PREVENTION+® sun serum at least 15 minutes before going out in the sun and again every two hours for the best protection. Do it after cleansing with your favorite IMAGE Skincare cleanser for skin that thrives outdoors.

AGELESS total pure hyaluronic 6 filler

When you spend time outside consistently, your skin will show it. The extra exposure to sun, dirt, wind, and even rain can quickly show up in your complexion. To help, IMAGE Skincare offers [hyaluronic acid skin care](#) that delivers a renewed look even after all that time outdoors.

The AGELESS total pure hyaluronic 6 filler uses time-released and cross-linked hyaluronic acid to draw hydration to the skin. This can help smooth wrinkles and soften the appearance of fine lines while promoting a healthy-looking glow. Use it morning and night to help your skin recover from outdoor stressors while preparing you for another day of adventures.

PREVENTION+ daily tinted moisturizer SPF 30

If you're spending time outdoors, you know how important efficiency is. And there's nothing more efficient than combining your daily moisturizer with sunscreen. The PREVENTION+ daily tinted moisturizer SPF 30 does it all.

The pure mineral formula protects your skin from UVA and UVB rays. An antioxidant blend protects your skin from outdoor factors like the sun and wind. And the sheer finish subtly evens out your skin tone for a healthy glow. It's a great addition to your skincare routine.

BIOME+ cleansing comfort balm

After a long day outside, there's nothing better than cleaning everything off. The BIOME+ cleansing comfort balm from IMAGE Skincare will do just that. It's a soft cream that also provides the benefits of a cleansing oil. The formula was designed to remove makeup, sunscreen, and impurities without damaging the skin. The non-stripping cleansing and hydrating plant oils combine for an evening cleanse that you'll look forward to every day.
