### The Race

**Format:** Horse races come in various distances and types of track surfaces(dirt, turf, etc.). Some punters might prefer hurdle races while others might prefer it plain. Races are also held on the horse's weights and experiences.

**Starting:** Horses enter stalls that open simultaneously to ensure a fair start.

### The Rider (Jockey)

**Skillful Riding:** Jockeys play a huge role in the outcome as they are the ones who must ride their horses to the best of their ability and strategically position them throughout the race.

**Safe & Fair Conduct:** Riders who have a good record of races and are strict about following rules are brilliant potential bets.

### Winning & Fouls

**Finish Line:** The first horse's nose across the finish line is declared the winner. Photo finishes determine close calls.

**Disqualification:** If a jockey breaks a rule (careless riding, interference), they may be penalized or even disqualified, depending on the severity.
