## Get Set with IMAGE Skincare Regimen Sets: The Oily Skin & Oil Control Set

---

Maintaining the natural moisture of your skin is vital, but excess oil can cause issues such as clogged pores and more frequent acne breakouts. But with IMAGE Skincare®, you can minimize excess oil and achieve your best skin yet.

When you want clearer, more vibrant skin, [salicylic acid pads](#) are a superb place to start. However, there's no better way to address oily skin than with the IMAGE Skincare Oily Skin & Oil Control Regimen Set.

Each professionally curated regimen set from IMAGE Skincare includes a combination of outstanding products so you can target a particular skin concern. With the Oily Skin & Oil Control Set, you'll get four products that will help you nourish and soothe your skin.

Here's a look at everything that's included in the Oily Skin & Oil Control Set from IMAGE Skincare.

### **ORMEDIC® balancing facial cleanser**

This mild gel cleanser uses gentle foaming action to remove impurities and leave your skin feeling hydrated, soft, and refreshed.

When you need to remove residue, makeup, or other substances, use the ORMEDIC® balancing facial cleanser to do so without stripping away crucial moisture.

Featuring a blend of flower extracts, botanicals, and organic aloe vera, this is an ideal cleanser for both mornings and evenings.

### **CLEAR CELL restoring serum**

IMAGE Skincare makes it easy to restore a healthy-looking, balanced appearance with this soothing, lightweight serum.

The CLEAR CELL restoring serum provides essential hydration for oily skin. Simultaneously, the serum absorbs surface oils, producing a mattifying effect.

With its purifying peptide and botanical complex, as well as vitamin C, this serum helps reduce the appearance of discoloration. Use it mornings and evenings so you can enjoy whatever's next with confidence.

### **PREVENTION+® daily matte moisturizer SPF 30**

If you've experienced the award-winning clear [gel sunscreen](#) from IMAGE Skincare, you know you can expect broad-spectrum UVA and UVB protection from the entire PREVENTION+ lineup.

That includes, of course, another award-winner: the PREVENTION+ daily matte moisturizer SPF 30 featured in the Oily Skin & Oil Control Set. Apply this mattifying moisturizer each morning to protect and prime your skin with a soft matte finish and minimal shine.

### **ORMEDIC® balancing bio-peptide crème**

Featuring mango butter, shea butter, and nourishing plant oils, the balancing bio-peptide crème is perfectly suited for replenishing skin that's crying out for moisture.

Like the restoring crèmes and masques in the IMAGE MD collection of [medical grade skincare](#) products, this crème should be applied liberally to cleansed skin each evening. You won't just enjoy better hydration—you'll also see clearer, more luminous skin.
