

**How Berxi Makes Buying  
Professional-Level Insurance Easy**

## How Berxi Makes Buying Professional-Level Insurance Easy

---

What do you want from an insurance company? A lot of professionals want coverage with terms that are transparent, make sense, and are affordable. Berxi, part of the Berkshire Hathaway Specialty Insurance Co. (BHSIC) family, is changing the way professionals shop for and buy insurance.

Berxi offers select professional liability and medical malpractice insurance, including [dental malpractice insurance](#) for a number of dental specialties. They also offer insurance options for those in real estate, technology, and other industries (errors & omissions). What about the buying process? They make it easy by meeting professionals where they are today. Here are a few ways they make it happen.

### Get Your Insurance Dialed in

As a professional, you want coverage that makes sense. You don't want too little or too much. Too little and you might not have a specific coverage when you need it. Too much and you may end up spending money on coverage you might not need. Berxi can meet you in the middle with coverage options that are dialed in.

Maybe you're a student nurse who needs malpractice insurance or another professional who is looking for other types of [malpractice insurance nurse practitioner](#), dental hygienist, and others included. They offer products for professionals at any stage of their career—or in different positions within an organization. This kind of insurance can also provide coverage beyond what your employer offers, whether you're a nurse practitioner or any other professional working in a clinic, practice, or elsewhere.

## Get a Quote with No Strings Attached

If you've purchased insurance in the past, you may have experienced the sales pitch. It's still common and it can be frustrating, especially when you're in the middle of researching your coverage options. Berxi puts you in the driver's seat of the shopping experience. You can get a quote with no sales pressure or strings attached.

If you're looking for top-rated [dentists malpractice insurance](#) and you want to simply get a quote, you can do that. The process takes little more than a few minutes. You answer questions and go from there.

## Get Professional Coverage That's Affordable

One of the big concerns about getting professional insurance of any kind is cost. Whether you're a student nurse or a long-time dentist, cost is on your mind. You want to know you're getting high-quality coverage that makes sense financially. Because Berxi sells directly to you, there are no salespeople or brokers to pay.

The direct-buy model keeps things simple in terms of overhead and paying people who may have nothing more to do with your insurance coverage other than signing you up for that coverage. Take those complications away, and the end result can be savings passed on to you. Plus, it just makes actually buying the insurance you want easier!
