

# How does Astrology help you in finding your Perfect Match?

The growing number of divorces is becoming a worrying issue today. Many couples choose to separate or get a divorce instead of working through their differences and finding compromises. Some couples avoid discussing their issues and opt to go their separate ways. This often occurs because they may not be well-suited for each other. When two people have completely different personalities, it becomes challenging for them to adjust and get along. They end up arguing over every little thing. The root of this problem lies in the alignment of their planets and stars as per [life partner prediction](#). They could have had a happy and harmonious married life if these were properly matched.

## WHY IS KUNDLI MATCHING IMPORTANT BEFORE MARRIAGE?

[Kundli matching for marriage](#) is considered important in many cultures, particularly Hindu astrology. Here are some reasons why Kundli matching is considered significant:

**Astrological Compatibility:** Kundli matching is based on the belief that the positions of the planets at the time of one's birth influence one's personality, behaviour, and destiny. By comparing the [Kundli](#) (birth charts) of the prospective bride and groom, astrologers assess their astrological compatibility.

**Marital Harmony:** Kundli matching aims to ensure harmony and balance in the marital relationship. A good match is believed to ensure a smoother and more successful marriage, while a mismatch may lead to discord and challenges.

**Guna Milan:** [Kundli matching](#) involves the calculation of 'Gunas' or points based on different planetary positions in the charts. The total number of Gunas is 36, and a higher score is considered more favourable. The Gunas are believed to reflect various aspects of life, including temperament, emotional compatibility, and financial stability.

**Identifying Doshas:** An [astrological consultation](#) helps identify any 'doshas' or astrological afflictions that may impact the couple's marital life. Common doshas include Mangal Dosha, which is associated with the position of Mars, and Nadi Dosha, which is related to the compatibility of the couple's Nakshatras (birth stars).
