

## Explore the Eicher 485 tractor in India

The [Eicher 485 tractor in India](#) is a fantastic model from the Eicher brand. The Eicher tractor 485 price is also reasonable for most small and medium farms, which is why it is popular among tractors under 7 lakhs. The model provides comfort and safety to the operator, making it one of the most popular tractor types. As a tractor under 50 HP, the 485 Eicher HP is suited for operating in any soil condition.

**Engine & Performance-** Eicher 485 HP has 45 horsepower. This tractor's engine capacity is 2945 cc; the cubic capacity influences the power provided by the engine. It has three cylinders and an air-cooled cooling system.

**Transmission-** The Eicher 485 tractor is available with a single or dual clutch. A partial constant mesh gearbox is included with this model. It has 8 forward and 2 reverse gear speeds. Depending on your preference, the gear lever location is either centre or side shift. The side shift gear lever provides greater legroom than the centre shift gear lever.

**Weight & Dimensions-** The Eicher 485 weights 2140 kg, making it a rugged and sturdy vehicle capable of heavy duties. The model's entire length and breadth are 3690 and 1785 mm, respectively. It also has a wheelbase of 2005 mm, which gives the tractor stability on difficult terrain.
