

The Cleanest Way to Cleanse and Care for Your Face with Ursa Major

The Cleanest Way to Cleanse and Care for Your Face with Ursa Major

Ursa Major is a clean skincare brand that can bring you closer to nature with their pure and effective skincare products, including serums, moisturizers, deodorants, and [natural shave cream](#). Full of nourishing, forest-infused ingredients, Ursa Major's clean products are perfect for the first step in your skincare routine—cleansing.

Cleansing your skin to support a clean and healthy-looking complexion is an everyday thing. You must complete this step to remove buildup and help your skin look radiant. With Ursa Major, you can cleanse and care for your skin with products that feature naturally gentle exfoliants and hydrating ingredients.

A Nickel-Sized Amount of Fantastic Face Wash

Ursa Major's popular Fantastic Face Wash will be your new favorite. This honey-colored face wash lathers into a silky foam. It gently exfoliates with sugar maple-derived alpha hydroxy acid without stripping your skin of moisture or interfering with your skin's pH level. The formula's aloe and rice extract help soothe, hydrate, and moisturize your complexion, while antioxidants from white tea help promote healthy-looking skin. This naturally nourishing formula is the perfect invigorating face wash for a daily skincare routine.

A Spray or Wipe of Essential Face Tonic

A cleanser isn't the only way to eliminate buildup. Use Ursa Major's Essential Face Tonic on its own or after cleansing to lift impurities from pores. This formula cleanses, exfoliates, soothes, and hydrates the skin for a super-powered step in your clean skincare routine. You can find this formula in a spray bottle, with a flip cap, or even infused into Ursa Major's bamboo [face wipes](#).

A Pump of Brighten Up Vitamin C Serum

After cleansing your skin and priming the canvas, further care for your complexion with hydrating and nourishing products like Ursa Major's Brighten Up Vitamin C Serum. This long-lasting form of vitamin C is potent and shelf-stable to ensure peak freshness. Plant-based ingredients like aspen bark, aloe, and rose offer additional benefits, including hydrating and renewing the skin and soothing your complexion. It's an ideal option for all skin types to help brighten dull-looking skin and lighten the appearance of dark spots.

A Small Scoop of Golden Hour Recovery Cream

The final basic step in cleansing and caring for your skin is moisturizing. Ursa Major offers four fantastic moisturizers, but their Golden Hour Recovery Cream is a favorite for a reason. This cream sinks into your skin, providing deep hydration and nourishment. It's an option for all skin types as a daily moisturizer for morning and night. You can get even and naturally smooth-looking skin all year with the help of vitamins and essential fatty acids in this formula.

Ursa Major can provide some of the cleanest ways to cleanse and care for your skin. They offer products that work well for all skin types, like their [wipes for face](#), but you can always make some swaps with Ursa Major's thicker and richer products if you live in a dry environment or your skin needs more moisture. From cleanser to cream, Ursa Major ensures you can steer clear of suspect or harsh chemicals that would make your routine anything other than completely clean.
